State Government Securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

## **C. WHAT ARE THE INVESTMENT STRATEGIES?**

The scheme intent to invest primarily in TREPS (or any similar instrument), Government Repo / Reverse Repo (in Government Securities), Treasury bills, Government securities (Issued by both Central and State governments) and any other like instruments as specified by the Reserve Bank of India from time to time and approved by SEBI from time to time with one day residual maturity. There could also be circumstances when the Scheme is entirely invested in Tri-Party Repo based on the Fund Manager's discretion or when other securities with overnight maturity are not available.

The Fund Manger will continuously monitor and review the macroeconomic environment including the political and economic factors, money supply in the system, Government borrowing programme and demand and supply of debt instruments, credit pick up among others, affecting the liquidity and interest rates.

## **Portfolio Turnover Policy**

The Scheme being an open-ended debt Scheme, it is expected that there would be a number of subscriptions and redemptions on a daily basis. Also the average maturity of the Scheme being low, the portfolio turnover ratio may be high. Further, in the debt market, trading opportunities may arise due to changes in system liquidity, interest rate policy announced by RBI, shifts in the yield curve, credit rating changes or any other factors. In the opinion of the fund manager these opportunities can be played out to enhance the total return of the portfolio, which will result in increase in portfolio turnover. There may be an increase in transaction cost such as brokerage paid, if trading is done frequently. However, the cost would be negligible as compared to the total expenses of the Scheme. Frequent trading may increase the profits which will offset the increase in costs. The fund manager will endeavour to optimize portfolio turnover to maximize gains and minimize risks keeping in mind the cost associated with it. However, it is difficult to estimate with reasonable measure of accuracy, the likely turnover in the portfolio of the Scheme. The Scheme has no specific target relating to portfolio turnover.

#### D. HOW WILL THE SCHEME BENCHMARK ITS PERFORMANCE?

The Scheme performance would be benchmarked against **CRISIL Liquid Overnight Index**

#### Justification for use of benchmark

Pursuant to SEBI Master Circular no. SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, specified a two-tiered structure for benchmarking of schemes, and stipulated AMFI to prescribe Tier-1 benchmarks for mutual fund schemes in the industry. Based on AMFI's recommendations, the Tier-1 benchmark as per Potential Risk Class matrix (PRC) of the scheme is chosen as CRISIL Liquid Overnight Index.

The Trustee reserves the right to change the benchmark for the evaluation of the performance of the Scheme from time to time, keeping in mind the investment objective of the Scheme and the appropriateness of the benchmark, subject to the Regulations and other prevalent guidelines.

### III. OTHER DETAILS

#### A. COMPUTATION OF NAV

The Net Asset Value (NAV) per Unit under the Scheme will be computed by dividing the net assets of the Scheme by the number of Units outstanding on the valuation day. The Mutual Fund will value its investments according to the valuation norms, as specified in Schedule VIII of the SEBI (MF) Regulations, or such norms as may be specified by SEBI from time to time.

The Net Assets Value (NAV) of the Units under the Scheme shall be calculated as shown below:

<b>NAV =</b>	Market Value of the scheme's investments + other assets (including accrued interest) - all liabilities except unit capital & reserves
<b>(Rs. Per unit)</b>	Number of units outstanding at the end of the day

For example, if the net assets of the Scheme are Rs.149,36,40,000 and units outstanding are 100,00,000, then the NAV per unit will be computed as follows: 149,36,40,000 / 10,00,00,000 = Rs. 14.9364 per unit. (rounded off to four decimals).

The NAV shall be calculated up to four decimal places. However, the AMC reserves the right to declare the NAVs up to additional decimal places as it deems appropriate. Separate NAV will be calculated and disclosed for each Plan / Option. The NAVs will be calculated and disclosed on all the Business Days.

While determining the price of the units, the mutual fund shall ensure that the repurchase price of an open ended scheme is not lower than 97 per cent of the Net Asset Value.

Valuation of the scheme's assets, calculation of the scheme's NAV and the accounting policies & standards will be subject to such norms and guidelines that SEBI may prescribe from time to time. For the detailed Valuation Policy and the accounting policy of the AMC, please refer the Statement of Additional Information.

For other details such as policies w.r.t computation of NAV, rounding off, investment in foreign securities, procedure in case of delay in disclosure of NAV etc. refer to SAI.

section on <https://www.samcomf.com/total-expense-ratio> for Total Expense Ratio (TER) details.

#### Illustration of impact of expense ratio on scheme's returns

For any scheme, NAV is computed on a daily basis factoring in all the assets as well as liabilities of the Scheme (including expenses charged). Expenses charged to the Scheme bring down its NAV and hence the investor's net returns on a corresponding basis.

Illustration of expenses and impact on the return	
Opening NAV Per Unit for the Day (a)	10.0000
Closing NAV Per Unit for the Day (b)	11.0000
NAV Movement Per Unit (c = a - b)	1.0000
Flat Return for the Day after expenses ( d = (c / a) %)	10.00%
TER % (e)	2.00%
Expenses for the Day (f = (b * e)/365)	0.0006
Expenses for the Day % (g = (f / b) %)	0.0055%
Flat Return prior to expenses for the Day (h = d + g)	10.0055%

#### Please Note:

The above illustration is purely given to explain the impact of the expense ratio on a scheme's return and should not be construed as an indicative return of the scheme.

Any tax impact has not been considered in the above example, in view of the individual nature of the tax implications. Each investor is advised to consult his or her own financial advisor.

#### D. LOAD STRUCTURE

Load amounts are variable and are subject to change from time to time. For the current applicable structure, investors may refer to the website of the AMC ([www.samcomf.com](http://www.samcomf.com)) or may call at 18001034757 (toll-free numbers) or additional contact number +91 63572 22000 from 9.30 am to 6.00 pm (Monday to Friday).

Type of Load	Load chargeable (as %age of NAV)
Entry Load	Not Applicable
Exit Load	Nil

The load structure will be equally applicable to all special products offered under the schemes such as SIP, STP, etc. However, no load will be applicable for switches between the plans under the scheme.

The entire exit load (net of GST), charged, if any, shall be credited to the scheme. The Investor is requested to check the prevailing Load structure of the Scheme before investing.

Pursuant to SEBI Master circular no. SEBI/HO/IMD/IMD-PoD-1/P/CIR/2024/90 dated June 27, 2024, there shall be no entry Load for all Mutual Fund Schemes.

For any change in Load structure AMC will issue an addendum and display it on the website/Investor Service Centres.

presently 3% calculated on the Sale Price.

#### At the time of changing the Load Structure:

- An Addendum detailing the changes will be attached to Scheme Information Document and Key Information Memorandum. The addendum may be circulated to all the distributors / brokers so that the same can be attached to all Scheme Information Documents and Key Information Memorandum already in stock.
- The addendum will be displayed on the website of the AMC and arrangements will be made to display the addendum in the form of a notice in all the Investor Service Centres and distributors / brokers' office.

Any change in load structure shall be only on a prospective basis i.e. any such changes would be chargeable only for Redemptions from prospective purchases (applying first in first out basis).

#### Methodology of calculation of Exit Load and Redemption Amount:

**Exit Load:** 0.25% if units are redeemed or switched out on or before completion of 30 days from the date of allotment of units. Nil if units are redeemed or switched out after completion of 30 days from the date of allotment of units.

**Amount invested on Jan 01 2024 and Applicable NAV:** Rs. 5,000 @ Rs. 10 per unit;

**No. of units Allotted on Jan 01 2024:** 500

**Amount invested on Feb 01 2024 and Applicable NAV:** Rs. 11,000 @ Rs. 11 per unit

**No. of units Allotted on Feb 01 2024:** 1000

**Units redeemed on Mar 01 2024:** 700

**Applicable NAV on Mar 01 2024:** Rs. 12 per unit

**Exit Load Calculation Methodology (on First-in First Out (FIFO) basis) for the 700 units redeemed on Mar 01 2024 is given as follows:**

- Exit load on 500 units bought on Jan 01 2024 which has completed more than 30 days on date of redemption viz Mar 01 2024: Nil
- Exit load on the balance 200 units bought on Feb 01, 2024 which has not completed 30 days on date of redemption viz Mar 01 2024 is as follows:

**Step 1:** Applicable NAV \* Exit Load applicable in % = Exit Load Amount per unit i.e. Rs. 12 \* 0.25% = Rs. 0.03 per unit;

**Step 2:** Applicable NAV - Exit Load Amount per unit = Repurchase price per unit; i.e. Rs. 12- Rs. 0.03 = Rs.11.97 per unit.

#### Calculation of redemption amount:

No. of units redeemed (Total 700 units)	Whether 30 days from date of allotment completed (yes/no)	Exit Load applicable (in %)	NAV per unit applied after consideration of Exit Load, if any	Total Exit Load Amount (in Rs.) on units redeemed	Redemption amount after exit load i.e. Units*NAV applied
500 units	Yes	Nil	Rs. 12.00	Nil	Rs. 6,000
200 units	No	0.25%	Rs. 11.97	Rs. 6	Rs. 2,394
<b>Total Redemption Amount →</b>					<b>Rs. 8,394</b>

**Note:** The above illustration is only given to explanation the methodology of calculation of Exit Load and Redemption

Amount. The actual redemption amount would depend on the prevailing Exit Load, applicable taxes, if any, and other terms and conditions mentioned in the scheme documents of the Scheme.

## SECTION II

### I. INTRODUCTION

#### A. DEFINITIONS/INTERPRETATION

In this SID, all references to “U.S.\$” or “\$” are to United States of America Dollars and “Rs.” are to Indian Rupees.

For detailed description please click the link: [www.samcomf.com](http://www.samcomf.com).

#### B. RISK FACTORS

##### i. Standard Risk Factors:

- Investment in mutual fund units involves investment risks such as trading volumes, settlement risk, liquidity risk and default risk including the possible loss of principal.
- As the price / value / interest rates of the securities in which the Scheme invests fluctuates, the value of your investment in the Scheme may go up or down depending on the various factors and forces affecting the capital markets.
- Past performance of the Sponsor/AMC/Mutual Fund does not guarantee future performance of the Scheme.
- Samco Overnight Fund is the name of the Scheme and does not in any manner indicate either the quality of the Scheme or its future prospects and returns.
- The sponsor is not responsible or liable for any loss resulting from the operation of the Scheme beyond the initial contribution of ₹1 lakh made by it towards setting up the Fund.
- Samco Overnight Fund is not a guaranteed or assured return scheme.

##### ii. Scheme Specific Risk Factors

##### Risks associated with investments in Fixed Income Securities

**Interest-Rate Risk:** Fixed income securities such as government bonds, corporate bonds, money market instruments run price-risk or interest-rate risk. Generally, when interest rates rise, prices of existing fixed income securities fall and when interest rates drop, such prices increase. The extent of fall or rise in the prices depends upon the coupon and maturity of the security. It also depends upon the yield level at which the security is being traded.

**Re-investment Risk:** Investments in fixed income securities carry re-investment risk as interest rates prevailing on the coupon payment or maturity dates may differ from the original coupon of the bond.

**Basis Risk:** The underlying benchmark of a floating rate security or a swap might become less active or may cease to exist and thus may not be able to capture the exact interest rate movements, leading to loss of value of the portfolio.

**Spread Risk:** In a floating rate security the coupon is expressed in terms of a spread or mark up over the benchmark rate. In the life of the security this spread may move adversely leading to loss in value of the portfolio. The yield of the underlying benchmark might not change, but the spread of the security over the underlying benchmark might increase leading to loss in value of the security.

**Liquidity Risk:** The liquidity of a bond may change, depending on market conditions leading to changes in the liquidity premium attached to the price of the bond. At the time of selling the security, the security can become illiquid, leading to loss in value of the portfolio.

**Liquidity Risk on account of unlisted securities:** The liquidity and valuation of the Schemes' investments due to their

holdings of unlisted securities may be affected if they have to be sold prior to their target date of divestment. The unlisted security can go down in value before the divestment date and selling of these securities before the divestment date can lead to losses in the portfolio.

**Credit Risk:** This is the risk associated with the issuer of a debenture/bond or a money market instrument defaulting on coupon payments or in paying back the principal amount on maturity. Even when there is no default, the price of a security may change with expected changes in the credit rating of the issuer. It is to be noted here that a Government Security is a sovereign security and is the safest. Corporate bonds carry a higher amount of credit risk than Government Securities. Within corporate bonds also there are different levels of safety and a bond rated higher by a particular rating agency is safer than a bond rated lower by the same rating agency.

**Settlement Risk:** Fixed income securities run the risk of settlement which can adversely affect the ability of the fund house to swiftly execute trading strategies which can lead to adverse movements in NAV.

### **Risks associated with investing in Tri-party Repo (TREPS) through CCIL**

The Mutual Fund is a member of securities segment and Tri-party Repo trade settlement of the Clearing Corporation of India Limited (CCIL). All transactions of the Mutual Fund in government securities and in Tri-party Repo trades are settled centrally through the infrastructure and settlement systems provided by CCIL; thus, reducing the settlement and counterparty risks considerably for transactions in the said segments. The members are required to contribute an amount as communicated by CCIL from time to time to the default fund maintained by CCIL as a part of the default waterfall (a loss mitigating measure of CCIL in case of default by any member in settling transactions routed through CCIL). CCIL shall maintain two separate Default Funds in respect of its Securities Segment, one with a view to meet losses arising out of any default by its members from outright and repo trades and the other for meeting losses arising out of any default by its members from Triparty Repo trades. The Mutual Fund is exposed to the extent of its contribution to the default fund of CCIL at any given point in time i.e., in the event that the default waterfall is triggered and the contribution of the Mutual Fund is called upon to absorb settlement/default losses of another member by CCIL, the Scheme may lose an amount equivalent to its contribution to the default fund.

Further, it may be noted that, CCIL periodically prescribes a list of securities eligible for contributions as collateral by members. Presently, all Central Government securities and Treasury bills are accepted as collateral by CCIL. The risk factors may undergo change in case the CCIL notifies securities other than Government of India securities as eligible for contribution as collateral.

### **Risks associated with transaction in Units through stock exchange(s)**

In respect of transaction in Units of the Scheme through Bombay Stock Exchange ("BSE") and / or National Stock Exchange ("NSE"), allotment and redemption of Units on any Business Day will depend upon the order processing / settlement by NSE and / or BSE and their respective clearing corporations on which the Fund has no control.

### **Risks associated with Restrictions on Redemption**

The Trustee and the AMC may impose restrictions on redemptions when there are circumstances leading to a systemic crisis or event that severely constricts market liquidity or the efficient functioning of markets. Accordingly, such restriction may affect the liquidity of the Scheme and there may be a delay in investors receiving part of their redemption proceeds.

### **Risks associated with segregated portfolio**

The unit holders may note that no redemption and subscription shall be allowed in the segregated portfolio. However, in order to facilitate exit to unit holders in the segregated portfolio, the AMC shall enable listing of units of segregated portfolio on the recognized stock exchange. The risks associated in regard to the segregated portfolio are as follows:

- The investors holding units of the segregated portfolio may not be able to liquidate their holdings till the time of recovery of money from the issuer.

- The security comprising the segregated portfolio may not realize any value.
- Listing of units of the segregated portfolio on a recognized stock exchange does not necessarily guarantee their liquidity. There may not be active trading of units of the segregated portfolio on the stock exchange.
- The trading price of units on the stock exchange may be significantly lower than the prevailing Net Asset Value (NAV) of the segregated portfolio.

## **C. RISK MITIGATION STRATEGIES**

Risk management is going to be an integral part of the investment process. Effective risk management is critical to fund management for achieving financial soundness. The investment team of the AMC will carry out rigorous in depth credit evaluation of the money market and debt instruments (other than G-Secs) proposed to be invested in. The credit evaluation will essentially be a bottom up approach and include a study of the operating environment of the issuer, the past track record as well as the future prospects of the issuer and the short term / long term financial health of the issuer. The AMC would incorporate adequate safeguards for controlling risks in the portfolio construction process, which would be periodically evaluated. Investments by the Scheme shall be made as per the investment objectives of the Scheme and provisions of SEBI regulations. AMC has implemented the Order Management System as Front Office System (FOS). The system has incorporated all the investment restrictions as per SEBI guidelines and “soft” warning alerts at appropriate levels for preemptive monitoring. The system enables identifying & measuring the risk through various risk measurement tools like various risk ratios, average duration and analyzes the same and acts in a preventive manner.

## **II. INFORMATION ABOUT THE SCHEME**

### **A. WHERE WILL THE SCHEME INVEST?**

Detailed description of the instruments mentioned in Section I is provided below:

#### **Investment in Debt and Money Market Instruments**

##### **Certificate of Deposit (CD)**

Certificate of Deposit (CD) is a negotiable money market instrument issued by Scheduled Commercial Banks (SCBs) and select All India Financial Institutions (FIs) that have been permitted by the RBI to raise short term resources. The maturity period of CDs issued by the SCBs is between 7 days to 1 year, whereas, in case of FIs, maturity is 1 year to 3 years from the date of issue. CDs also are issued at a discount to face value and can be traded in secondary market.

##### **Tri-party Repo in Government Securities**

Tri-party Repo means a repo contract where a third entity (apart from the borrower and lender), called a Tri-Party Agent, acts as an intermediary between the two parties to the repo to facilitate services like collateral selection, payment and settlement, custody and management during the life of the transaction. The Scheme shall undertake Tri-party Repo transactions in Government Securities.

##### **Commercial Paper (CP)**

Commercial Paper (CP) is an unsecured negotiable money market instrument issued in the form of a promissory note, generally issued by the corporates, primary dealers and All India Financial Institutions as an alternative source of short term borrowings. CP is traded in secondary market and can be freely bought and sold before maturity. CP can be issued for maturities between a minimum of 15 days and a maximum up to 1 year from the date of issue.

##### **Repo / Reverse Repo**

Repo (Repurchase Agreement) or Reverse Repo is a transaction in which two parties agree to sell and purchase the same security with an agreement to purchase or sell the same security at a mutually decided future date and price.

The transaction results in collateralized borrowing or lending of funds. Presently in India, Central Government Securities, State Government securities and T-Bills are eligible for Repo/Reverse Repo.

### **Treasury Bill (T-Bill)**

Treasury Bills (T-Bills) are issued by the Government of India or State Governments to meet their short term borrowing requirements. T-Bills are issued for maturities of 91 days, 182 days and 364 days. T-Bills are issued at a discount and for a fixed period.

Securities created and issued by the Central and State Governments as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government Securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in coordination with the RBI.

### **Non-convertible debentures and bonds**

Non-convertible debentures as well as bonds are securities issued by companies / institutions promoted / owned by the Central or State Governments and statutory bodies which may or may not carry a Central/State Government guarantee, public and private sector banks, All India Financial Institutions and Private Sector Companies. These instruments may be secured or unsecured against the assets of the Company and generally issued to meet the short term and long term fund requirements. The Scheme may also invest in the non convertible part of convertible debt securities.

### **Floating rate debt instruments**

Floating rate debt instruments are instruments issued by Central / State Governments, corporates, PSUs, etc. with interest rates that are reset periodically.

### **Tri-party Repo (TREPS) through CCIL**

Trading in the triparty repo is conducted over the Triparty Repo (Dealing) System (TREPS) a screen based anonymous order matching system that is provided to the members of CCIL's securities segment and Triparty Repo (Dealing) Segment of CCDS. TREPS receives borrowing limits and initial margin details from CCIL for each member based on cash and/or government securities contributions by respective member. Once the orders are matched and the trade is concluded, the first leg consideration is determined by the system based on the tenor and the repo interest rate of the trade. Members can square off the trades or re-repo (i.e. lend trade can be squared off by borrow trades and vice a versa) wherein the second leg settlement date of the squaring off trade is the same business date as the second leg settlement date of original trade. TREPS trades are settled through CCIL's Securities Segment.

**Securities created and issued by the Central and State Governments** as may be permitted by RBI, securities guaranteed by the Central and State Governments (including but not limited to coupon bearing bonds, zero coupon bonds and treasury bills). State Government securities (popularly known as State Development Loans or SDLs) are issued by the respective State Government in co-ordination with the RBI.

### **Short Term Deposits**

Pending deployment of funds as per the investment objective of the Scheme, the funds may be parked in short term deposits of the Scheduled Commercial Banks, subject to guidelines and limits specified by SEBI.

The Fund Manager may invest in such any other security as may be permitted by RBI / SEBI from time to time and which are in line with the investment objectives of the Scheme.

## B. WHAT ARE THE INVESTMENT RESTRICTIONS ?

The Scheme shall not invest more than 10% of its NAV in debt instruments comprising money market instruments and non-money market instruments issued by a single issuer, which are rated not below investment grade by a credit rating agency authorized to carry out such activity under the SEBI Act, 1992. Such investment limit may be extended to 12% of the NAV of the Scheme with the prior approval of the Trustee and the Board of Directors of AMC. SEBI/HO/IMD/IMD-SEC-3/P/CIR/2025/15 dated February 12, 2025, has introduced a service platform Mutual Fund Investment Tracing and Retrieval Assistant (MITRA) designed to help investors trace inactive and unclaimed Mutual Fund folios. MITRA platform provides a centralized, industry-wide searchable database, enabling investors to identify overlooked investments or those made by others for which they may be rightful legal claimants. The platform also encourages investors to complete their KYC as per current norms, thereby reducing the number of non-KYC-compliant folios and ultimately leading to a decline in unclaimed Mutual Fund folios.</p> <p>An inactive folio is defined as a Mutual Fund folio where no investor-initiated transactions (financial or non-financial) have taken place in the last 10 years, but unit balances remain available. These may include folios where investors have either consciously chosen to remain invested in an open-ended scheme or have lost track of their investments. There is no adverse consequence for folios appearing on the platform if the investor is aware of their holdings and has intentionally remained invested. The primary objective of MITRA is to assist investors in retrieving forgotten Mutual Fund investments and ensuring their KYC compliance.</p> <p>The MITRA platform will be jointly hosted by the two Qualified RTAs (QRTAs)—Computer Age Management Services Limited (CAMS) and KFIN Technologies Limited—acting as agents for Asset Management Companies (AMCs). It will be accessible via a link on the websites of MF Central, AMCs, AMFI, the two QRTAs, and SEBI, ensuring widespread availability and ease of access for investors.</p>
<p><b>Disclosure w.r.t investment by minors</b></p>	<p>In case of investments held in the name of a minor, no joint holders will be registered. The minor, acting through the guardian, should be the first and sole holder in the Folio/Account. The guardian of the minor may need to submit such declarations and/or other documents/information as a proof of guardianship, as may be prescribed by the AMC from time to time. Payment for investment by any mode shall be accepted from the bank account of the minor, parent or legal guardian of the minor, or from a joint account of the minor with parent or legal guardian. Irrespective of the source of payment for subscription, all redemption proceeds shall be credited only in the verified bank account of the minor, i.e. the account the minor may hold with the parent/ legal guardian after completing all KYC formalities. Upon attainment of majority by the minor, the account should be regularised forthwith, the minor in whose name the investment was made, shall be required to provide all the KYC details, updated bank account details including cancelled original cheque leaf of the new account. No further transactions</p>

	shall be allowed till the status of the minor is changed to major. The AMC may specify such procedures for regularisation of the Folio, as may be deemed appropriate from time to time. Post attainment of majority by the minor, the Mutual Fund/AMC will not be obliged to accept any instruction or transaction application made under the signature of the guardian. In case of an application for registration of a systematic transaction facility (Systematic Investment Plan / Systematic Transfer Plan / Systematic Withdrawal Plan or Transfer of Income Distribution cum capital withdrawal), if the end date of the facility extends beyond the date of attainment of majority by the minor, such facility will be registered only up to the date of attaining majority.
